One night  
One fight  
That's all it took to destroy the relationship we had  
There is always going to be one thing in your heart that  
will never ever end  
Because you are one of my best friends  
Memories of the past keep me smiling  
I hope they do the same exact thing for you  
All of my heart  
All of my love  
All that I give  
Well, it goes out to you too

You are one of my best friends  
I know that I can count on you  
And you will be there until the end  
You are one of my best friends

I know sometimes my heart didn't seem outspoken  
I never intended for your heart to become broken  
I never deserved any love that you gave to me  
You could have done such better  
Why don't you see?  
Even if we are not together  
I still consider you one of my best friends...  
It doesn't have to end!

You are one of my best friends  
I know that I can count on you  
And you will be there until the end  
You are one of my best friends
