It's hard to tell ya' what I'm feeling
There's something magic in my heart
I feel so new - I swear I'm dreaming
I'll call it love - now that's a start

(Well) maybe it's the way you hold me
Or maybe it's the way you kiss
And I'm celebrating this

Can't stop this feeling
One look from you and I get high
Can't stop this feeling
Can't stop this feeling
One look from you and I get high
Can't stop this feeling

I'm walking like there's air beneath me
I've never felt this good before
And I didn't know what I was missing
Never knew my heart could soar

Mmh - maybe it's the way you hold me
Or maybe it's the way you kiss
And I'm celebrating this - celebrating

Can't stop this feeling
One look from you and I get high
Can't stop this feeling
(Now I'm believin')
One look from you and I get high
Can't stop this feeling
