

3xfast "Weak End"

Visit "[Weak End](#)" on MotoLyrics.com

Get up get out of bed
Everyday is the same to me
I need to get it through my head
That's how it's going to be
If I took time to think about it
I'd find it's really not that bad
The obsession with the weekend is starting to make me
mad

Look back
The week went by so fast
We're there
The weekend would never last

Time to go back to school
For me to be with the same old group
I'm trying to imagine where I'd be

There without my friends
Get stoked every time I hear that we've got ourself a
new show
The weekend's come around again
To get up get out and go

Look back
The week went by so fast
We're there
The weekend would never last

Pick me up

I'm never home for the day
But there's no time for me to play
And time it never passes slow
And I hope this weekend never goes away
