[Toons]

Uh ha, ser-vice. Yeah.  
See I'm spreading the word  
Remaining unseen but heard  
Around the world form the witness  
What I deal wit, everyday  
It's another form of war,  
The government trying to put me behind the bar doors  
Slangin cannabis just smashin' the seven-fo  
Delivery man going door to door for doe  
While raising the stash quote hollerin' Cyto"  
Dummies runnin' up when they don't know what they up  
against  
You test this you fail  
Regardless the cop reveals  
Hitten' em like a SWAT team outta hell  
Hungry for money to pay the bills  
Feed and cloth my seed  
I'm livin' just to see him live life comfortable  
Not having to struggle wouldn't do dirt for bundles  
Stayin' humble with a lion's heart  
Don't worry about me dog, I can play my part  
Switch the role meet them halfway with a double four  
Let him know  
Around these parts, ain't no marks  
Just crash men with various tools  
for building and destroying cats coming at me  
With a pair of facts you niggas never learn  
Seem to me you wanna be you  
But can't be you  
Cause curious monkey do  
What stupid monkey sees

[The Grouch]

Sees (Seize) A moment...  
Come from within and then  
Polish  
Call it a day and stay  
Solid  
The wallet will fill it will  
I promise

Be honest you and through  
Trust time will tell there's no one better to know than  
self  
Grow life like a rugan, then bask in the wealth  
Though I'm askin' for help on the constant  
I pull my power through my inner working content  
Forever never ignore your voice  
Instinctive  
Travels they lead and hoist  
You up where  
Politics cannot breath  
Believe in  
All that you stand to leave  
Behind is nothing  
Ease your mind from suffering  
And redefine what things are the norm  
if you can't and won't settle to conform  
We maybe only born just once  
In a rival of this new age has time,  
Feeling like a crutch  
And I can carve my own spot to rot  
Better yet rock I forgot to go jock yet recognize other  
ways  
The place where my brother stays mentally waves  
It's time to raise

Hook:

"It's just my interpretation" - Outkast  
'SpottieDottieDopaliscious'  
"I be the odd man out" - Mobb Deep  
"It's just my interpretation"  
"That's trying to pump what I'm about"

[Pep Love]

Like thisss.

Mystifying

To the beat of the city I know the gist of way I'm

Here right now

On this occasion

For everything I've done so put down the gun mister  
officer

I just wanna sit down and talk to ya

Crime I've done but I was having fun at the time

Of trying to get mine

But you judging and bill stick

bulging me trying to keep a nigga in line

But I walk the path that's spirals and turns, expands  
and intensifies

Idle concerns of survival, into a general concept

Like a muscle, my mind is in step, with my every jester

That's why when I see you, you don't see me

Pass by on my quest for the best tie  
Yes I, individual chose to live how I live and will  
continue to  
Power, I possess, personally  
And you can probably tell after conversing with me  
Knowledge is abundant all up in my noggin'  
But you searchin' runnin' my tags, mad cause I ain't got  
shit

[Eligh]  
Sometimes I feel something like shock wave in my  
spine  
Half of the time it's when I'm dreamin'  
it's deep without a conscience mind  
Mind constant pressures of structure they force my  
intuition  
To adapt like I'm not with the bros, still fearful of the  
drier  
But I got guys who strive along my side  
At all time when I don't trust my mind as much as my  
heart  
Or the stomach lock, depends on the risks you take  
Depends on the mix of the fate  
You dealt deck but I had trouble shoot  
confusion with logic a little self respect  
And knowledge of outlicks on the outdoor travels  
and what I needed to hear  
I know it's right for me and sometimes know it's right  
for you  
Try to tell fools what to do, but if I know something I do  
I feel the energy within contact  
so I trust my intuition that's the truth  
(that's the truth man)

Hook
