**VERSE 1 (SHORTY SPITZ)**

Twisting up a swisher to disfigure what I have to be  
The devil keeps attacking me but I proceed to attack  
the beat  
Missing my reflection but these shadows are always  
after me  
I'm staring in the mirror and the world staring back at  
me  
The waters rising I support the levee  
Through Jesus Christ ima hold it steady  
These angels calling I just hope im ready  
Cup full of syrup and im smoking heavy  
My mamma dont approve but I just pray the lord  
forgives me  
Lack of sleep I stay up recording  
The futures flying claiming its important  
But I won't give a fuck then because I never gave a fuck  
before it  
Live for God today because tomorrow might forfeit  
(shit)  
In a world where fossil fuel overpowers people  
The only thing I seem to gas myself up on is sour diesel  
And to the girl that wears them shades to keep the hate  
away  
And thinks her great escape is in a fresh pack of razor  
blades  
Inflictions to the wrist to take the pain of the rape away  
The world is the devil girl dont let em lad your faith  
astray  
Shit im just trying to blow on my medicinal  
And empty out my mind when its getting full
