"Love Song"

Visit "[Love Song](#)" on MotoLyrics.com

(Originally from the album "High Winds White Sky")

In the place my wonder comes from
there i find you
your face shines in my sky

In your heart where the world comes from
there you will find me
your eyes dance in my mind

Come with me
we will sail on the wind
we will sway among the yellow grass'
when you be beside me
i am real

Though my eyes be closed forever
still i would find you
you shine across my time

So come with me
we will sail on the wind
we will sway among the yellow grass'
when you be beside me
i am real

In the place my wonder comes from there i find you
