Somebody touched me
Making everything new
Somebody touched me
I didn't know what to do
Burned through my life
Like a bolt from the blue
Somebody touched me
I know it was you

Somebody touched me
Deep in my bones
Turned a key in the hole
There was somebody home
Some would say that I'm dreaming
But I swear that it's true
Somebody touched me
I know it was you

Somebody touched me
Like the rain on the wind
Left me alone
Feeling like I'd been skinned
But I know you're with me
Whatever I go through
Somebody touched me
I know it was you
