I like..
uh..yeah...code 5...ha

I like girls with CornRows, Weaves and braids
Walk like a woman but she be my age
I seen her waiting for the bus so i swung around
Threw my bike my up on the curb put my kickstand
down
standing around, bus came, bus left
Bus never picked her up i must have said something
fresh
She was hot to death, from the hood like me
get tight wit the chain, get funk like me

(HOOK)
WHY would she deny me her name
The way she said no it drived me insane
Give me minute a pen and a pad
IF you don't like the way I speak
Baby I ain't mad

What's your name girl? Can I call you
Operator put my call through
Where you live girl? Can I see you
I will call then, if I need you

What's your name girl? Can I call you
Operator put my call through
Where you live girl? Can I see you
I will call then, if I need you

She was telling me why i waste my time
Trying to get a number aint never been declined
She dont wanna give me the time of Day
She see me with my folks from around the way
Can you give me some attention and
Not to mention I would forget all my friends and
Drop my peeps Ill pick you up
It must have been the money Is it cool or
whaaaaaaaaaat?

Why would she deny me her name
The way she says no it drives me insane
Give me a minute a pen and a pad
If you dont like the way i speak
Baby I aint mad

What's your name girl? Can I call you
Operator put my call through
Where you live girl? Can I see you
I will call then, if I need you

What's your name girl? Can I call you
Operator put my call through
Where you live girl? Can I see you
I will call then, if I need you

Why would she deny me her name
the way she says no it drive me insane
Give me a minute,a pen and a pad
If you dont like the way i speak
Baby I aint mad

What's your name girl? Can I call you
Operator put my call through
Where you live girl? Can I see you
I will call then, if I need you

What's your name girl? Can I call you
Operator put my call through
Where you live girl? Can I see you
I will call then, if I need you

I like ...I like....
