# "A Heart With 4 Wheel Drive"

Visit "[A Heart With 4 Wheel Drive](#)" on MotoLyrics.com

Drivin' down a dark road  
Can't see my hand in front of my face  
I'm just spinnin' my wheels again  
Stuck in this same old place  
Oh, the bridge is out up ahead  
And the river's on the rise  
I'm too far gone to turn around  
I need a heart with 4 wheel drive

Chorus:

I can't get no traction  
When I look into your eyes  
When you kiss me tenderly  
My wheels get paralyzed  
Somewhere down the highway  
I'm gonna find that exit sign

But I can't get these wheels turnin'  
I need a heart with 4 wheel drive  
I need a heart with 4 wheel drive

Every time you crank me up  
You take me down a dead-end street  
You hitch a ride just long enough  
To watch me overheat  
Well, I've got tears all over my windshield  
And rain pouring out of my eyes  
There's only one way out of here  
I need a heart with 4 wheel drive

(Repeat Chorus)
