[Akrobtik]

Ah ah ah ah ah ah ah ah ah

It like we could do like a series of those things
anyways..

Fat Shit part 2, Like Fat Shit part like 25

I can take it wherever it go, yo, wherever it go

[Mr Lif]

Where's it going?

[Akrobatik]

Yes yes

Come on

Say what?

About the

[CHORUS]

Fat shit!

Everybody bounce bounce *echoes*

Ak and Lif running shit down the line

Ladies and Gentlemen-entlemen *echoes*

Ak and Lif runnin shit down the line

Yo yo

Y'all know the routine

Hip Hop's dream team's back on the scene

You're on your toes - the tips, son

Recognize the way that we rip, son

The law has been laid when Akrobatik and Lif's done

What's your method of preparation for this lyrical
devastation

Educatin' with your verbal detonation

Peep this demonstration that exposes my infatuation
with

Rockin' the mic, the way the people like yo

I inform

Plus my style's been warm

Now I'm hot past levels ever reached by mercury

Hip Hop has a cancer and its a grave emergency

Call in doctors Lif and Akrobatic for the surgery

But scratch the anesthetic and ain't nothin sterile

We bring it grimy plus we save the joint from its peril
And you know who is brought on by the wicked
But my nigga Mr lif came to burn 'em yo kick it

[Mr Lif]

Now you're epidermis and dermis is like a furnace
Blood rises to the surface
You erupt into a puddle of plasma
Good to see you son, welcome to the after
Ease up! Here's no fucking **?ear in a casbah?**
Absorb life through every pore
Till the essence of your being is very sore
Stretched so far you can see what's next
I've analyzed, measured
The boundaries of your terror
Jacked your data then advanced to the never
This is what the future holds
More lives bought and sold
In the land of the free yet controlled
We're innocent never parolled
As a courtesy the walk streets patrolled by uncertainty
Chaos is created as we hunt for security
Have our codes and bombs provided any calm?
You want the answer?
Search no further than you have to
Watch everybody panic every natural disaster

[CHORUS]2X

[Akrobatik]

Yeah once again you work soldier and bust it
You take the western hemisphere
I'll tke the eastern hemisphere
We'll meet halfway in eight months
And we'll do part 3
