"I Loved You"

I loved you
Although against my will I knew I loved you
Time was standing still because I loved you
But someday I knew you'd fly away
Tomorrow
That could never be a new tomorrow
For I can only think of yesterday
And everyway... I loved you
Such memories of moments when I loved you
I loved you then but you were never mine
A summer to remember for all time
Leaving me with tears from farewell eyes
Those precious moments saying last good-byes
And I loved you
But you were never mine
