(chorus)

Carmen, I don't know if I can go back.

Carmen, I'll never be the same again.

Carmen, Carmen, Carmen.....

The way you set the table

The way you lean into tell me something soft.

The way I can see into you.

The way you tell me I talk too much about myself,

It's true, I talk too much about myself,

But right now I want to talk about you now.

(chorus)

I love the way you think

Is it biological or all the acid you've eaten?

Just take me to your body,

I want to be high I want to be drunk

I want to be high on you.
