I might fly and lose it all I'll be a cannonball Maybe  
you'll walk away, oh Maybe you'll walk away Set me up  
and light me off I'll be a cannonball But maybe I'll walk  
away, oh But maybe I'll away Cannonball (I'll be a  
cannonball) Cannonball [Drake] Yeah, alright Look, like  
my big bro say I'm goin' in And if the pool's of money  
I'm just glad I learned to swim Cannonball, bitch, I hope  
the divin' board's sturdy And I hope when dinner's cold  
my niggas do not dessert me Ha, and these haters like  
damn 'em I gave a lot of women they first ride in the  
Phantom And yeah I got a deal now and I'm secure with  
it And yet my life is so excitin' I get bored with it I'm the  
best one outta my peers And everybody pray I'm  
runnin' outta ideas Pass my moselys it's all so bright  
And I'm the result of when it all goes right So many  
pictures man the flow is a collage Critics have a hard  
time pointin' out the flaws Artists slick talk I just hope I  
don't fall Right out of the sky through the roof of your  
garage I'm a... Cannonball (I'll be a cannonball)  
Cannonball
