Lift me out of this struggle
Lift me out on the other side
with all these signs of a trial
nothing will keep it open
suicides and murder are revolting
the day has changed it's through

Lift up your memories
Lift them out off of the floor
Your scars aren't of this world
we'll take them down

the hills are sopping with blood
it's the dead horizon
you never stop making me scream
lift me up these scars stay true
you're to beautiful to wake up
through my death of the accursed fire
your sudden cries cant stop me
yes. your silence

yes it is

before daylight broke now
the bones lie forever
your sins understand violence
your sins lay on the floor

the stars
die down
requesting
we die
the stars
at night
have suffered
without

you witness it bad
you have demon handcuffs
you're trapped
and so is the key in the station
lies

in the future with us
the bomb runners
the bomb runners
one by one we'll kill each other
without much at hand
and open up the earth but
find us
your day of stature
one by one we'll kill each other
without much at hand
and open up the earth
one by one, we will all die
one by one, we will all die
i will die
i will die

the
earth
starts
to ignite
do
you
euphemize
with fire

do you not fear this blade?
i'll teach you its embrace
your pain, what you hate
your stricken day has come in full
do you feel fear at new heights
you fight so good its tipping the scale
why do we race you're so poisoned

(solo)

Where are the stars?
Where are the stars?
Where are the stars?
Where are the stars?

the stars grow old
when these stars grow old
feel the pain in these stars
but they wont die
forever!
they'll stay
forever!
thats where i'll stay

BEFORE DAYLIGHT BREAKS!
