Your vision of a new life was impure  
Gave into temptation and threw away what you  
believed  
Your immaculate state of mind was only temporary  
Your faults your flaws got the best of you

Your commitment, your pledge to another human  
being  
Was destroyed through curiosity  
Your goal in life is far out of reach  
You'll find yourself out of luck

Branded into your chest - domestic livestock  
Society kept track of your defiance  
Branded into your chest - domestic livestock

Terror embedded into your thick mind  
Bearing your emblem with pride  
Plagued by it's purpose in genesis  
Subsequently flaunting it's meaning

Your vision of a new life was impure  
Gave into temptation and threw away what you  
believed

Infestation  
Infestation

Roc-a-way

Your immaculate state of mind was only temporary  
Your faults your flaws got the best of you  
Got the best of you  
Got the best of you

Your guard was let down  
Your past turned against you  
Your guard was let down  
Your past turned against you
