Walking down a highway
Strung out from the cold

Every step that I take
Is a step away from home

I'm a million miles from where I started
But i'm not afraid

'Cause your blue eyes looking down on me
brighten up my day

And i'll be okay
As long as I
Live through today

And i'll be okay
As long as I
Live through today

Back out on the highway
I stop from time to time

No one knows not even you
When i'll see the sign

And when the world comes crashing down on me
I won't be afraid

With a casual glance, and a side step
I'll be back out on my way

And i'll be okay
As long as I
Live through today

And i'll be okay As long as I Live through today
