Hamlar song

you drive along the road straight to DonauwÃ¶rth
suddenly you're turning left and you are there
it's only a small village but to me it means the world
a world I wanna live in until I die

chorus:

Hamlar, Hamlar - time stands still
love and peace that's all what I feel

2.)

when you go in you smell the smoke
see long-haired people in hippie clothes
some are dancing, some lying on a couch
you hear good music and it's dark and loud

3.)

sex and drugs and rock 'n' roll
flower power - is that all ?
Hendrix and Choplin and Morrison they are dead
and it's only been a dream when you go to bed
chorus, Git. Solo, Hendrix and Choplin
