[Nate Dogg]

Hey OG, could you tell how to find some good weed  
I need it homie oh so fast  
That last bag was the best weed I've ever had  
Bass so deep, I can't even seem to feel my feet  
Girls so fine, I can't help it got to make this one mine  
I hit em with my, gangsta leans  
They can't separate my music from me

[Chorus]

Music and me (3x)  
Music, my music and me

[Nate Dogg]

Time does change, but the music it remains the same  
I hit em with the music from the slave  
Oh my goodness, what my ancestors gave  
I don't want to think I don't know  
They thought me how to reach deep down and touch  
the soul  
Without my music, where would I be  
You thought me how to cry and still remain a G  
You keep alot of soldiers at ease  
And together the next next level proceed

[Chorus]

[Nate Dogg]

Music and me, go together perfect harmony  
Soft at mellow, oh so hearted to make your sweet kiss  
explode  
Stay with me, and together we will live out this dream  
My music and me

Music and me (4x)  
My music and me  
Music and me (4x)  
My music and me
