Stumped the old lady with words she'd never heard
Kinda go crazy when i'm around her
I see who you are and i know what you want
I know what you have and i know you have not
Met her last summer was the last summer for me

Go on catch fire when you are happy
Go on catch fire when you are mad
If you desire make it a double
I know the troubles you think you have

Who in the world would take someone there
With eyes kinda crossed and a nose way up in the air
I see who it is when i turn the light on
Couldn't pretend no i couldn't hang on
Will the kind owner make a loner of me?

Everyone knows you can't make it cold
Without a cinder a spark will never grow
I see who you are and i know what you want
I know what you have and i know you have not
Met her last summer was the last summer for me
