Feather row the boat stream and turn
Feather row the boat nothing to learn
All the other boats are far away
Featherweighted, your actions say it's impossible

Feather row the boat if you like
On the river you will be allright
Look inside of her to see what is hate
She is sleeping but soon she'll wake
She's impossible

Sails cut right through it
Engines tear into it
Old people fear it
Young children won't go near it
Swim into the starry ocean

Feather row the boat with friends i hope
You were in the sky but now you float
Were you afraid of me when you flew away?
Together we can kiss the ocean spray
So lovable

It's so lovable of me
It's impossible
