Got my feet up in a car  
I'm not going where you are  
It's my sanity or bust  
And it never really was everything i wanted  
Everything i needed  
Everything complete.  
Everything you've ever heard  
And there's not a single word to put your mind at rest  
And yes i never guessed everything you wanted  
Everything you needed  
Everything. complete.  
I only hear what i want to, want to, i want to  
And i just follow my feet, and i stumble on.  
Everything you wanted  
Everything you needed  
Everything. complete.  
I'm almost giving it away  
I'm almost near  
I'm almost half-way home  
I might be home
