"The Righteous Ones"

Visit "[The Righteous Ones](#)" on MotoLyrics.com

We are the strange, we are rejected
We are the cure, we are infected
We are the cracks, you can't repair
You are the righteous ones
You are the righteous ones
We are the freaks, we are the queers
We are the shockers, we are all here
There's something coming, it's in the air
You are the righteous ones
You are the righteous ones
You can close your eyes if you want to
Lock your doors and hide if we haunt you
Get your guns tonight if we scare you
But we ain't going nowhere,
No, we ain't going nowhere
You can pass a law if you need to
Punch us in the jaw when we beat you
Use your shock and awe if you dare to
But we ain't going nowhere,
No, we ain't going nowhere
We are the gods, we are the stars
We are the lovers who role the arts
We are the nerds, we are the spark
You can't deny us, you can't deny us
You can close your eyes if you want to
Lock your doors and hide if we haunt you
Get your guns tonight if we scare you
But we ain't going nowhere,
No, we ain't going nowhere
You can pass a law if you need to
Punch us in the jaw when we beat you
Use your shock and awe if you dare to
But we ain't going nowhere,
No, we ain't going nowhere
We can turn the pleasure into suffering
Do it under pressure when it's happening
We can see the treasure inside everything
Inside everything, inside everything
We can turn the pleasure into suffering
(never mind)
Do it under pressure when it's happening

(never mind)
We can see the treasure inside everything
(never mind)
Inside everything, inside everything
You can close your eyes if you want to
Lock your doors and hide if we haunt you
Get your guns tonight if we scare you
But we ain't going nowhere,
No, we ain't going nowhere
You can pass a law if you need to
Punch us in the jaw when we beat you
Use your shock and awe if you dare to
But we ain't going nowhere,
No, we ain't going nowhere
We can turn the pleasure into suffering
Do it under pressure when it's happening
We can see the treasure inside everything
Inside everything, inside everything
We can turn the pleasure in suffering
(Never mind)
Do it under pressure when it's happening
(never mind)
We can see the treasure inside everything
(never mind)
Inside everything, inside everything.
