#### Verse 1

I know just who I be, I know just what I need  
Don't need no sympathy, I just wanna live my life  
'Cause life is so beautiful in my eyes  
I love the birds and bees all in the summer breeze  
Or chillin' at the beach, I love to enjoy my life  
Leave your stress and troubles behind

#### Chorus

That's the way I am and I don't give a damn  
If you really don't understand, cause I'm payin' my own  
rent  
And I never ask for sympathy  
All I wanna know's if you're down with me  
So don't misunderstand, cause that's just the way I am

#### Verse 2

I know what's family, I know what's loyalty  
I know just how it feels for someone to love you right  
Cause life's so beautiful in my eyes  
I love expensive things, champagne and diamond  
rings  
But life without these things  
Is still a wonderful life, just be thankful you're alive

#### Bridge

I'm gonna live the way I live  
Enjoy my life, live positive  
And help someone who ask  
It's time well spend  
'Cause that's the way that I am
