I remember when we fell
you took my whole life
my breath away
I remember when we kissed
as you drift into the sun (drift into the sun)
So you take a round and take fall
and wait so shallow
Wait for me before you take it all away

Far away
it's not like I wanted to
Far away
It's not like I can breathe anymore
Far away
It's not like I wanted you
But your not for me, not for me anymore

I remember when we met
It took your whole life, your breath away
I remember when we kissed
as you drift into the sun (drift into the sun)
So you take a round and take fall
and wait so shallow
Wait for me before you take it all away

Far away
it's not like I wanted to
Far away
It's not like I can breathe anymore
Far away
It's not like I wanted you
But your not for me, not for me anymore

(Not for me.... your not for me..
your not for me....not for me)

Far away
it's not like I wanted to
Far away
It's not like I can breathe anymore
Far away
It's not like I wanted you

But your not for me, not for me anymore

(Not for me.... your not for me..
your not for me....not for me)
