Pin drop, falling out of still
Breach is over and over
Head over heels
New low rides on me without a sound
No love - her nothing, hear nothing, nothing
I'll never, ever need you
Forever, never good-bye
Say good-bye through the eyes
No words i hear alive in the good lie

From me, to you (Repeat)
I blew the chance of forgiveness
Volatile
Freedoms dance - mystical
No love - Can't penetrate here small space
New low. I wish you'd get out of my face
Call it something...
