I'm leaving today, hopes for a better way
Taking it one breath, one step at a time
Never feeling that I won't get by
And soon as I get mine

{Chorus}

Ahh - Easy life worth easy blood
Ahh - Out of reach without no one
Ahh - Easy life worth easy blood
Ahh - easy life.
I didn't see that coming, I didn't see them coming

All without warning, falling fast asleep
Awaken to lost whispers in a dream
Taking nothing that's given to me
Now get away from me, let me sleep or rest in peace

{Chorus}

I walked up to the edge of this bad side
I kneeled before my maker I thought
Silently lashed out to leave alone
She sat there and cried.

{Chorus}

Higher tides
