

## 40 Grit "Last Time Around"

Visit "[Last Time Around](#)" on [MotoLyrics.com](#)

I try to find something new  
I watch the time fly in me head  
Slowing me down, feeling so strong  
The same old shit from the last time around  
Deceived in the way I seem complete  
Now I know just what they mean

{Pre-Chorus}

I've got to find a new way to feel alive

{Chorus}

Tearing me down, focus on what I have missed  
So deceived in the way I seem so complete  
I need no disguise I'm stepping from this

I've got to find a new way to feel alive

I've had too much time to think about it  
Because everything's running around in my head  
Running around in my head  
I'm out of my head  
Now I see what they mean

{Pre-Chorus}

{Chorus}

It's in the way  
It's in the way you live  
It's in the way  
It's in the way you talk about it

{Chorus (x2)}
