{Pre-chorus}

So far alive, Unconscious sigh
So far a miss here.

Read about it and lived all the time
All the while, bigger smiles
Traveled through the world in their prime
Around their block, through the neighborhood
Where you first delayed, was when it's understood,
Your life was rearranged and insane.

{Pre-chorus}

So far alive, Unconscious sigh
So far a miss here.

I'll be the one who shot someone

Belated sun cast light on none
Always a war upon my own lethal injection
Talk about disease control
No one can help me no more
But I thought I was the one in control
I was, but I can't say no more...

{Chorus}

I am what I am, I am only human
And I disregard the truth
I am what I am, I am only human
Now these dreams are haunting you

{pre-chorus}

{Chorus}
