my name is the light at the end of the tunnel i am the  
train thats come to run you down  
like elliptical phase i shine only some days  
ima papercut on your finger as you rip out a page of  
good health  
im the daily news a day too late if you had read the  
headline that day you wouldnthave harmed yourself

i see a empty space next to me  
its a space you should fill  
yet when i look nothing is what i see  
but i look every time still  
if your there  
and when i sleep with you there  
and i wake and theres no one there  
i relize your a dream  
one that haunts me more than most  
nothing would redeem  
thinking of your ghost

if i said id love you itd be to n0one else (everyone)  
because im a liar not to you but myself(everyone)  
cause i hate you and nobody else(everyone)  
im a perfect picture of good health im sick and nothing  
else(everything)

so when you breathe and theres nothing there(there  
never was)  
remember that i was the one who stole the air(and take  
your bretahe away)  
cause i shut your eyes fo the last time then i close  
mine(they always were)  
and i pull the outside in i know now ill never be perfect  
again(i never was)  
and in the end i begin again live life as it was before &  
not pretending anymore(i never did)

i see a empty space next to me  
its a space you should fill  
yet when i look nothing is what i see  
but i look every time still  
if your there

and when i sleep with you there  
and i wake and theres no one there  
i relize your a dream  
one that haunts me more than most  
nothing would redeem  
thinking of your ghost
