CORPS.. - STONED

You think it was it

nah im here to make the words fit

Unsecure me and you did a fuckin big mistake

keep da faith

My signature made me as all you know a dirty gangsta

Not even close you a fucked untrustable wanksta

Hangin around at streets in the middle of tha night

Wanna start smokin then I spons you wit a chesterfield
light

Afraid of hights but would like to high change yo mind

I'll pop yo ass Desert Easel and im not playin wit yo
mind

Painted on the wall like graffiti wanna see me

While I and ma crew stays thru bangin down the streets

We're not dumb as you eastsidaz usin cheats

Respect is all I care about now get down on yo knees

Befo' we call in backup oh I mean tha police

Yau call me on the phone and we make shure you're
dead

All ma doggz need a bone and not tha one in yo head

[chorus 2x]

IM STONED, STONED WANNA GET STONED LIKE ME
STONED AS FUCK ALL YOU NEED IS TO SUCK AND A
LITTLE BIT OF LUCK YOU'LL GET STONED...

Based on plastic I wanna kick da mad shit

Promessed you kingdom but let you rock da gadget

Playing da game is not easy when yo in same

position as me get the millitia pass thee

Im hevely guarded by white n black spraycans

Took it or left it I gave yo one chance

Now your warned dont wanna get us harmed

Give that reward my men will bust yu hard

Button's downpressed and now its active

Dont copy mine yu got yo own taktic

Cuz Ill fuck up yours but thats not even counted

As money, money, money, hah your haunted

Yo suffer, suffer, suffer im da most wanted

Suspect as usual move against the wall

Weather's headin for fall

im not da only one gettin confused by these reactions

typeone's dead disk n pad is now in action

[refreng 4x]
