Oh the little country church where we used to sing and  
pray  
How God would bless us in the old fashioned way  
It's still in my memory oh I can see it now  
We would sing all day have dinner on the ground

If the whole world loved Jesus you'd find more people  
there  
Singing rejoicing as they kneel in prayer  
Then an old fashioned handshake and gather around  
At the Singing all day and dinner on the ground

We would sing those old songs and the preacher would  
preach  
Of how Jesus died for you and for me  
You could feel the Great Spirit from Heaven pouring  
down  
At the singing all day and dinner on the ground
