The world is blind  
It doesn't take a scientist to figure that out  
but you and I need to take the truth  
and start erasing the doubt

This lyrical poetry is racing inside of me  
I think the whole church needs a spiritual lobotomy  
got to throw some dirt on this spiritual watergate  
cause' six feet under and it's still try'n to agrivate  
everybody sayin whats all the worry  
no need to stress man whats all the hurry  
I came to take on that anti-Christ intellect  
The new school theoligy is now in effect

Turn the page  
just another story of teenage rage  
is this the way  
our co-pathetic comfort allows us to stay

what are you about have you ever thought it over  
a bonafide servant or a Sunday poseur  
all dressed up and your frontin' the look

do ya ever check tha pages of that big black book  
cause if you did man I know you'd comprehend  
It's a lack of morality that I'm try'n to offend  
We can win this war if it's love we show  
Now It's time to

Go  
to your neighborhood  
that's right  
from New York to Hollywood  
take the Message to the world  
Go  
when I'm blastin out your speakers  
like a soap box preacher  
take that Message to the world

Your wanted  
you try but you know  
This feeling it won't let you go

Don't you believe whats inside  
I'm saying our Light needs to shine

but I have got to get away  
to share the things I have to say  
It's time for me to take a stand and Go!

Chorus repeat
