"Who Am I"

You remind me of
A TV show I used to love
That I still watch the reruns of

And I can't forget
The episode I long to regret
I have tried but I haven't yet

I used to go
To the shelter of my radio
But you're in every song
No longer do I sing along

Tell me, who am I
I ask myself a thousand times
And the answer is hard to find

I have these things
That remind me how
Your memory clings
All I can do is try
But hey, that's me
And who am I
