Verse 1:

Look for real love; you'll find trial and pain  
See a Man scourged and smeared with lies and shame  
Only love could make a King come down from glory  
To free captive sons from chains of slavery

Chorus:

Love never fails; through the hour of dark travail  
Love is the will to always give; its final word is to  
forgive  
When wrong seems to prevail, love will rise again  
'Cause love never fails

Verse 2:

Love isn't falling; it's a daily climb  
Born in a moment, love takes a whole lifetime  
Easy to say, but so hard to live  
We're desperate to take, while empty to give

Bridge:

I believe in the power of love 'cause love believed in me
