Verse 1:

The ropes of death ensnare and the trap of sin holds  
tight  
But in a moment You are there - my captain in the fight  
Take now my hand in Yours and help me to wield this  
sword  
Till every foe I fight falls down to rise no more

Chorus:

This is the God I serve; this is the truth I trust  
We shall more than conquer by the power of great love  
Apart from Him I am nothing, but by His grace I stand  
Strong to triumph while He's holding tight my hand

Verse 2:

Oh, reach down from heaven and draw me to Your light  
Please drive out all the darkness I cannot see to fight  
Arm me with new strength; be for me a shield  
Train me with a truth that wins the battlefield
