Verse 1:

The voice of our God moves on the earth
The voice of our God bringing to birth
Parting mighty waters
Calling sons and daughters
The voice of our God
The voice of our God

Chorus:

Lift up your praise you saints of God
Welcome with joy the King of love
At the sound of His voice let every soul arise
Singing Glory to God on High
Glory to God on High

Verse 2:

The voice of our God calms the waves
The voice of our God opens the grave
Rushing on the wind
Spirit come within
The voice of our God
The voice of our God

Bridge:

The voice of Yahweh shakes the wilderness
The word of God wakes the living dead
