[Chorus - Sarah McLachlan]

And it's a long way down

It's a long way down

It's such a long way down to the place where we started
from

[Prevail]

Yo, I'm still trying to figure out this Venus and Mars
thing

But every time I see you all I hear is a harp string

We chilled last night I had to record this

Listen to portishead making love in the forest

Where not stuck in this orbit it's gonna work out for us

So gorgeous like the voice of the woman gracing the
chorus

A newborn in its pure form gentle and precious

We connect on more than just mental don't let this shit
stress us

I'm okay if you're okay, I know it sounds cliché

But we built this whole relationship from sand and clay

Now we're so strong we've got a concrete bond

And it completes so solid I had to write this song

[Chorus]

[Madchild]

We met when we was young two hearts that beat as
one

I knew it from the start not till death do us part

Nothing compares to you (keep blazin')

I'm a fine young cannibal and you drive me crazy

I know your looks attracts guys but that don't faze me

Soul mate, make me feel like they got nothing on me

Just to taste your lips plus your voice is calming

I know its hard babe cause I'm always on tour

But my love is fucking pure and that's for sure

Been around the world feel like I've covered whole
earth's surface

Stressed out to the point of asking if it's worth it

Sometimes it trips me out kid cause you're so perfect

I gotta keep working, striving and building

So we can get a house, have kids and grand children
Till then I'll make sure you don't regret
That you gave me another chance girl I won't forget

It's a long way down (4x)

[Madchild talking over]

Listen to me man, make sure you love what you do
Cause it's gonna take a time for anyone to get to the
ultimate goal
And as long as you love what your doing
Doesn't matter how long it takes and when it finally
does happen
Try to remember how hard you worked to get there
And appreciate that shit
Keep climbing, BattleAxe...

[Madchild]

I'm shark where you swim sharp as a dart in your skin
We've been given a title that's not hard to defend
Not just my partners my friends see this from start till
the end
With words that alter the wind cause we assault with a
pen
And hit with the song no problems here we getting
along
Take turns from learning from our mistakes admit
when we wrong
And everybody knows how to fight to shows that are
tight
A cobra that strikes, nobody's sober tonight

[Prevail]

Take a walk on the wild side give me beats and I'll
never die
I'll hold your mind like a hypnotist
Swing the watch into overdrive
There's no rabbit or wand my habits are ripping a song
The magic comes from the act of people waving their
arms
I'm as sane as I was given and receiving the love
Living and breathing this stuff with *Rob the Viking* on
drums
Battleaxe warriors; Madchild Prevail
This is music for y'all bars notes and scales

[Chorus]
