[Intro: Madchild] + (Prevail)

Yo Prev (what's up)

I'm thinking man; we don't always have to talk about  
dungeons and dragons all the time, you know?

(hmmm)

We don't have to make things so complicated (no  
doubt)

Let's take this back and show them how we can do this  
too (word)

[Verse 1: Prevail]

Deep, I'm using canyons you can't get by the cannon  
(no way)

Season veterans, the hawk has landed

Toxic tandem, the docotorum of mad men

The planet of apes is now a main attraction

How does it happen? If I knew I'd tell ya

They'd probably try to say I worshiped devils in the  
cellar

It's just a slight of hand, like Penn and Teller

The mighty dollar, is taller than the scholar

Ask your neighbourhood martyr about the fire starter

People are driven to buildings when I let it out my  
system

Built my the hands of man and women

Thinking of quitting? Now's the time

There's more job opportunitites at the back of the line

Applications, and registrations

Feels more like an investigation

Now how's that for a demonstration

4, 3, 2, 1

Go back to the essence

What were gunna do right here... take it back to the  
basics

Swollen Members, word

What were gunna do right here... is go back

Go back to the essence

What were gunna do right here... take it back to the  
basics

Swollen Members

[Verse 2: Madchild]

Eh yo, we all get older, rhymes get bolder  
Series of events makes the heart grow colder  
Started off with 2, now we got mad soldiers  
Battle Axe warriors, bitch, I thought I told ya  
Heinekens on stage, never rock shows sober  
Spit venom over cobra, hatched in october  
Libra scorpion is taking over  
Still the silver surver, I ain't trippin on nova  
Introducin Madchild, ladies and gentleman  
Lets give a big round of applause for adrenalin  
You ain't right, I'ma fucking phantom at night  
That wears a mask by day, with a temper tantrum  
Don't light my fuse, 'cause if this dynamite blows up in  
your face  
There won't be no one left to clean up the place  
Swollen Members adds up to one thing, and you can  
quote this  
Temporary relief for the hopeless

What were gunna do right here... is go back  
Go back to the essence  
What were gunna do right here... take it back to the  
basics  
{\*repeat 2X\*}

[Prevail]

Prisons that are made by the minds of lethals  
Truly blind, it confinds all people  
Make you wanna call out for water and bread  
My name is Prev One I put the thought in your head

[Madchild]

Mannic depressant, I panic from too much stressin  
Of course I'm second guessin cause life is just a  
question  
Keep your suggestions, we aint hearin you guys  
My name is Madchild I put the fear in your eyes

[Prevail]

Grey skys, disguise my chariot  
I've arrived to mesmerize the arrogant  
Clear the area, and change the false  
Pathetic speakers that lead the lost

[Madchild]

We feed the need to work and conquer at all costs  
Underground so there aint nothing to fall off  
Never spoke soft, so what if we get broke  
We ain't the type of people that's meant to make a joke

of

What were gunna do right here... take it back to the  
basics

What were gunna do right here... is go back

Go back to the essence

{\*repeat 2X + scratching\*}
