Fuck American Stupidity
Fight for what's right
Fight to be Free
so blinded by war
us kids they cannot see
bodies mangled everywhere
rotting in disgust
with the fear of nuclear war
with the fear of being dust

Chorus
in a fallen economy
its a war we'll fucking see
in a fallen economy
its a war filled with anarchy

stay american
stand tall
what about when buildings fall
everyone runs in fear
the bodies rise when the dust clears
