If you're not afraid  
Of what love brings  
Then endings are beginning  
Of beautiful things  
It's a chance you take  
A chance you're in  
If someone's gonna find you  
First you gotta let them in...

**CHORUS**

(Oh) Coz love begins with one hello  
The hardest part is over  
So it's easy letting go  
One hello, is how it starts  
You might win in love  
While lose your heart.

If you're not afraid  
Of what you feel  
Then try and keep it simple  
But try and keep it real  
And if being real  
Means you're someday say goodbye  
Remember my friend, that was not the end  
It's a circle you know  
And it's starts with one hello  
(Repeat Chorus except last two lines)

Remember my friend  
That was nothing  
It's a circle you know  
And it starts, it starts with one hello.  
It's starts with one hello.
