Help me if you can't!  
I feel like an ant

Millions of years ago  
When we were all free  
To suck our sugar  
And grow our own beans

When the lakes were all oceans  
And man lived in the sea  
Those were our days  
This is our dream

I wish I was a mole in your garden ground

My name is my odor  
And all colors are gray  
No words from my mouth  
Use telepathic ways

When the earth opens wide  
And time ceases to be  
Beware the sword of justice  
And children of the sea
