All my friends are bootleggers and bootlickers  
Righteous dealers and deep revealers  
You better run preacher run  
You never see the cycles  
Burn preacher burn  
I'll put my words in your fire

Here's to race-mixers and mix-masters  
Native rattles and let's dismantle  
Run preacher run  
Your time is dissolving  
Turn preacher turn  
The circuits are all burning

I would tongue the texture  
Nook 'n cranny, rise 'n flow  
Drop down hard time mama  
The rollin' holy tumblin' ghost

Move preacher move!

All my friends are bootleggers and bootlickers  
Righteous dealers and deep revealers  
You better run preacher run  
You never see the cycles  
Burn preacher burn  
I'll put my words in your fire
