So far away, until I see your face
Holding on to you with every last grace
Honey if you're lost, I promise to never lose you
The moon shines bright on the ocean, it guides your
way home

Look at me, tell me what do you see
I'll never let you go
Look at me, We can work this out now baby,
before you're on your own
Come on back home

Scattered photos on the wall, bring back memories
Disposables can bring times back, but never bring the
real thing
I'm down on my knees, I'm begging you not to go
Throughout a million years a thousand tears

I'll be waiting for you at home, at home.

This is a love, do not let this go
This could be our lives,
But if you wanna, we'll take it slow, yeah

Look at me, tell me what do you see
I'll never let you go
Look at me, We can work this out now baby,
before you're on your own
Come on back home

It's hard to see you go
When I know that you're the one
The innocence and love we used to own
Come on, come on back home

Come on back home
