"Both Wheels Left The Ground"

Visit "[Both Wheels Left The Ground](#)" on MotoLyrics.com

Well, shooting down the highway like a bullet from a
gun
Wind blowing in my face, really having fun
Pull down the throttle, when you wanna hear the sound
I got the throttle wide open, both wheels left the ground

Well I ain't got a worry and I don't give a damn
I tell you pretty baby I'm a fast livin' man
When I pull down the throttle, then you gonna hear the
sound
I got the throttle wide open, both wheels left the ground

Well shooting past some wagons and nipping through
the lanes
People think I'm crazy, like I ain't got no pains
They don't understand, man I'm just fooling around
I got the throttle wide open, both wheels left the ground

Well, skimming down the highway like a bullet from a
gun
Wind blowing in my face, really having fun
Pull down the throttle, when you wanna hear the sound
I got the throttle wide open, both wheels left the ground
