"Sahara"

Don't let love let you down
It's been fine up to now
Sahara, I just walked into your world
Sahara, don't walk out on me now
Don't let time tie you down
It's been fine up to now
Sahara, there is life in the desert
Sahara, let the sands run away
But in my heart and in my head
I know that she'll wait for me
Sahara brings me down
She will take up all your time
Then she'll laugh and cut you down
Do you still hold a light for ... for me?
Don't let fires burn too low
Wild-eyed winds they still blow
Sahara, I just walked into your world
Sahara, don't walk out on me now
But in my heart
