Written by - Jim Croce & Ingrid Croce
There's ice and snow on the northern roads
And the Jersey Pike is closed
Have to go and do some drivin' tonight
They say I'd be a fool if I would ride those icy roads
But a little storm ain't stoppin' me tonight

Chorus:

I'm gonna wear out the turnpike
Rack up those miles
Keep this rig a rollin', I'm in it every mile
'Cause she's in Oklahoma and
I'm up in Maine
So diesel sing a song that will bring me home again
Doodle doo doo doo doo doo doo doo doo doo doo
Doodle doo doo doo

There's a red light turnin' behind me
There's a trooper on my tail
I can tell I won't get to New York town on time
If he decides to pull me over
And if he get's me on the scale
I'm gonna have to tell a tale or take a fine

Chorus

With the snow against my windshield
I will run on through the night
There's not stoppin' me once I hit the road
Cause the turnpike's like my second home
And I know it like my hand
So diesel sing a song that'll bring me home again

Chorus
