Beautiful changes in different keys,
Beautiful changes and harmonies,
He starts in C, then changes to D,
He's foolin' around most any old key!
Shh!

Watch that, hear that, minor strain,
Ba doh, ba doh, ba da da doh dad doh!
There's so many babies that he can squeeze,
And he's always changin' those keys.
Ooh!

First, he changes into B, changes into C, changes into
D, changes into E,
As easy as the weather can!
Ooh!

Now, he's gettin' kind of cold, gettin' kind of hot, listen,
I forgot,
Since he was a tot, he's been the talk of Dixieland.
