The TV is talkin' to me

It's positive identification

But maybe I'm mistaken

I talk to my radio

I keep it tuned to the all night show

I'd give my last dime for coverage

But you will not cover me

I got a penchant for the printed page

I got a mention in the Monday news

I was on my last leg

When it came through

I talk to my radio

I keep it tuned to the all night show

I'd give my last dime for coverage

But you will not cover me

No no no no

Tune it in to the pale blue light

Whispers to me through the night

Better love

Better lovers

Cover cover cover cover

Cover cover cover cover

Coverage

I would have made it sooner see

But I got caught up in the dream traffic

Blew the demographics

I talk to my radio

I keep it tuned to the all night show

I'd give my last dime for coverage

But you will not cover me

No. You will not cover me

No. You will not cover me
