Long  
Ago  
In the garden of Eden, far from the reachin'  
Of God  
They lay  
The serpent and Eve, soon to concieve  
A child  
Oh no  
Noone ever knew, the child slowly grew  
And grew  
One day  
A maiden so fair, with a serpent's stare  
Beware  
Her eyes  
Was the actual reason, for Cain's profane treason  
And so  
Since then  
She's tortured all men, through the minds of women

Chorus:  
Her spirit lives on, in the daughters of the world  
The serpent's blood is theirs, they know to decieve  
The mother to all, the women in the world  
Was born in sin, the Bastard Child of Eve

Souls  
They seek  
Every man that they've felled, send him to hell  
Not one  
Reprieve  
No mercy of course, they feel no remorse  
Just joy  
When they  
Lure us well, to a contract with Hell  
Chorus:
