Death is spitting in your face  
Still you will not turn around  
Of all the lost souls in this place  
Not a single one'll be found

Chorus:

Hell is calling to the warzone - WARZONE  
Where the doomed have come to die  
No escaping from the warzone - WARZONE  
You live to kill and then you die

Tension's growing by the hour  
As you start to lose control  
For the fear will soon devour  
The last remains of your damned soul  
Chorus:

Caught in a crossfire  
Crawling through barbed-wire  
To die is all we know  
When it's time to go... DIE!!!  
Chorus:

Die now!
